# Enclosure series aluDISC

Type: AR 100

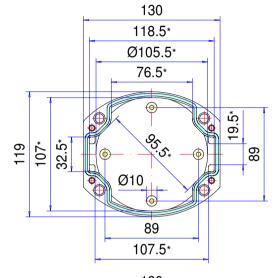

40.5

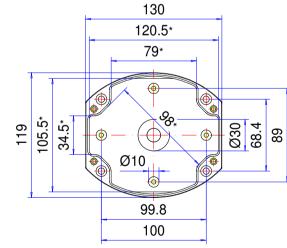

10.5

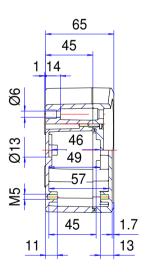

32.5

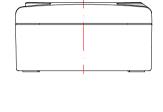

Material-No.: 280.100.000

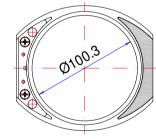

Folie/ Keypad Ø99.7 +0 -0.2

<sup>\*</sup> Please note: Mould slope for casting ejection, dimensions in the amount of the bottom!

Enclosure material	EN AC-44300 (DIN EN 1706)	Ingress protection	
Lid screws	4x stainless steel 1.4567 (V2A), captive	Weight	1
Assembly screws	5x M5x8, galvanized steel	Coating	I
Design covers	2x Polyoxymethylene (POM), RAL 7016, anthracite grey	Tolerance	I
Gasket	1x moulded gasket, silicone, red		

Ingress protection	IP66/67 EN 60529
Weight	610 g
Coating	Powder coating RAL 7035, light grey
Tolerance	DIN CEN ISO/TS 8062-2 (outside dimensions ±0,5mm)

# 280.100.000 aluDISC AR 100

Product overview	iew	
Material	Aluminium	
Protection Class	IP 66/67 EN 60529, IP 69K	
Color	RAL 7035	
Certifications	CSA (optional), UL (optional), GOST	
Length (L)	130 mm	
Width (W)	119 mm	
Height (H)	65 mm	
Weight (g)	590 g	

#### aluDISC

#### THE ROUND ELECTRONICS ENCLOSURES

IP 66, IP 67 - Optional: IP 69K

#### The key product features:

- Enclosure material: diecast aluminium
- Enclosure surface: powder coating, RAL 7035
- Clip-on design covers
- The enclosure can be fastened when the cover is fitted
- Integrated recess to accommodate membrane keypad or front plate
- Lid screws in stainless steel 1.4567
- Enclosure seal: silicone moulded gasket

---

aluDISC is the world's first round diecast aluminium enclosure for industrial electronics. The unique design integrates perfectly with machinery and piping systems. No matter if it is mounted on a wall, to a pipe system or a machine housing, the round aluDISC shape will always make a great impression.

Standard features include IP 66 and IP 67 protection classes, a recessed lid for fitting a membrane keypad or product label, snap-on design covers which hide the lid screws and mounting holes, lid retaining straps, an optional hinged IP 65 transparent cover and screw bosses in the base and lid for fitting PCBs, mounting plates etc. The enclosures can be mounted without opening the lid which means your electronics remain protected at all times. Matching cable glands and other accessories are also available.

We can supply aluDISC enclosures fully customised to your requirements.

#### **Enclosure sizes**

4

#### **Additional info**

Integrated recess in the lid for a membrane keypad, front plate or label

For AR 120: Optional protective cover with hinge mechanism made from transparent polycarbonate (PC),

UV stabilised, UL 94 V-2 - 0,36 ~ 1,9 mm, HB > 1,9 mm, sealable

Clip-on design covers, plastic POM (polyoxymethylene), similar to RAL 7016 anthracite grey

Optional: Lid support, lid screw with plastic element made from stainless steel 1.4567 and polyamide (PA6)

#### **Enclosure**

Diecast aluminium alloy

EN AN-44300 DIN EN 1706

(GD AI Si 12/DIN 1725)

1° mould slope for casting ejection > internal circumference dimensions decrease by 1° towards enclosure bottom.

#### **Fastening**

Separate screw channels

## Internal mounting

Fastening thread on the enclosure base and in the lid

## Ingress protection

IP 66, IP 67 / EN 60529

Optional: IP 69K / ISO 20653

# Gasket

Silicone moulded gasket

Optional: Chloroprene O-ring gasket (CR)

#### Lid screws

Stainless steel 1.4567, captive

#### **Surface**

Powder coating RAL 7035, light grey

Optional: Special colours
Optional: Corrosion protection

## Customising

Learn more about our full customising service for installation-ready enclosures

# **Full-Service-Products**

Customization according to your wishes.

Everything begins with individual advice. We'll be pleased to support you with your project and find solutions for every requirement. Customer-specific solutions are our speciality.

Test our products with your internal mounting. We'll be pleased to send you a sample enclosure for inspection with no strings attached.

We'll manufacture every enclosure for you according to your exact specifications - whether they involve precise drilling or large tolerance.

Thanks to our modern CNC production, we can quickly and efficiently mill custom-fit cut-outs and contours to match your exact specifications.

Our services also include engraving your logo and other elements, which we can of course perform in any colour you desire.

We can process stainless steel enclosures and plates quickly and reliably according to your individual requirements thanks to our in-house lasering centre.

We can powder coat enclosures, command enclosures and suspension systems in any RAL colour you desire. Custom colours are of course also possible.

We can also paint all our enclosures in any RAL colour you desire. The application of primer and special colour structures are possible, as well.

If desired, we can apply your logo and lettering or other markings using serigraph printing.

Digital printing is particularly worthwhile for low-volume orders and for realising complex parterns or images.

We offer our conFORM low-price standard EMC enclosure to protect your internal mounting against electromagnetic radiation. On request, we can also supply an EMC-compliant version of any other ROLEC enclosure.

We are able to offer the right made-tomeasure display for all our enclosures - in varying sizes and degrees of robustness depending on the application.

ROLEC's portfolio also includes matching front plates, mounting plate, supporting rails and terminal blocks as well as a range of cable glands, blanking plugs etc.

Would you like to have all your components supplied already assembled?
No problem. Our assembly team will be pleased to perform all assembly work on your behalf.

If you have any requirements for services not listed here, please ask us. Customer-specific solutions are our speciality. We also are keen to take on unusual tasks.

We will help you with those challenges that many others

Our Service

would give up on.
